Question 3. The children are wanting to have a rest right now. They seem to be exhausted.

- A. exhausted B. have C. are wanting D. children

Read the text and choose the best answer.

The most obvious advantage of living green is that it helps reduce environmental pollution. This is done by practicing the 3Rs. The first R means choosing products very carefully to reduce waste as much as possible. Reusing involves the repeated use of items. The third R is about separating materials that can be recycled and later used for a new purpose.

There are also economic benefits to living green. Reducing the use of energy and water can help save money on household bills. Furthermore, reusing products and materials is another way to make saving. **It** helps save on production costs since creating new products wastes materials and is expensive. Recycled products also last longer than new ones, making them a better and more eco-friendly option.

Lastly, going green offers health benefits. It reduces air pollutants by making the air we breathe cleaner and healthier. This means fewer diseases and doctor's appointments. Another way to improve your health is to **purchase** organic foods and green products for your household. They don't use harmful chemicals that can lead to health issues. In turn, you are also supporting responsible farming methods that protect the environment.

Question 4. What is the main idea of the text?

- A. The pros of a green lifestyle.
B. Difficulties in adopting a green lifestyle.
C. Trends in green living.
